

## Father Killed By Son While Guard Bridge

A most unfortunate sequel to the bank robbery at Smithers last week was the death of William John Robertson of Telkwa. The deceased and his son Fred was guarding the big railway bridge at Telkwa under authority of the provincial police. The son's rifle exploded and instantly killed the father.

According to evidence at the inquest held at Telkwa on Tuesday by Coroner Hoskins, the father and son were guarding the bridge. The father was an ex-soldier. About a quarter to six Monday morning the father undertook to show the son some of the tricks of the soldier game and how a gun ought to be handled. The father and son, in a playful way, started poking each other with their guns and the son hit the trigger of his gun in some way and the bullet struck his father.

The accident was reported at once to the police. The coroner's jury brought in a verdict of accidental shooting.

The late W. J. Robertson was 42 years of age. He is survived by two sons, one being at home at the time.

There is a great deal of sympathy in the district for the two boys. The family has had considerable trouble.

The funeral is to be held on Thursday afternoon.

### FOUND A HYBRID CALF

While wandering around in the lakes country seeking repose after a strenuous year's work and after attending the advertising manager's convention, Geo Wilson of the Prince Rupert News, discovered a hybrid animal on a bachelor's ranch near Ootsa lake that he writes considerable about it in his paper. It seems that the rancher had a Jersey cow and the cow in turn was admired by a bull moose. The calf is now three months old and doing well. There is a good deal of interest in the animal taken by the farmers of lakes country.

### NEW GENERATOR FOR THE CUP

According to W. B. Dornberg, general manager of the Silver Cup (Hazelton) Mine, Ltd., a new generator for the mine will arrive at Hazelton and will be taken up the hill at once. He says that it will require about two weeks to get it installed but after that he has hopes that all troubles will have been over come. There are some 8,000 tons of ore in the stopes and the mine crew is breaking about 300 tons per day, so that when the new machine gets going the mill will be fed to its full capacity.

### BISHOP WAS HERE FOR A WEEK

Last week His Lordship Bishop Bunoz of Prince Rupert spent several days at Hagwilget and New Hazelton meeting large numbers of natives who were at Hagwilget for their annual gathering. Bishop Bunoz made a trip into the Babine some time ago and then went on to Edmonton where he attended a church gathering. He returned to Prince Rupert Sunday. Another visitor was Father Cocola who spent just one day here and proceeded to the coast. For a week or more the Indians from many distant parts gathered at Hagwilget for feasting, field sports and for fishing. There was a big gathering and a good deal of fun. Most of the Indians now travel in their own cars.

## Hudson's Bay Building a Big Store, Hazelton

Work started last week preparing the ground for the erection of the new Hudson's Bay Co. store at Hazelton. The property occupied by W. H. Sharp for a quarter of a century or more as a home and watch and clock shop has been selected as the site for the new store. The buildings were disposed of to James Hodder who has moved them away and will fit them up for rent. He is also clearing up the lots. The contract for the erection of the store will be let this week and the construction is to start immediately so that the store will be ready for the fall trade.

The new Hudson's Bay store will be a one and a half story frame building 30 feet by 60 feet with a full size concrete basement. It will be modern in every way with electric lighting and with office accommodation. The top floor will be finished and used as a show room.

The plans of the company are very extensive. All the old buildings on their property are to be removed and disposed of, including the hall, the old store houses and the numerous old cabins. The land is to be all levelled and put in shape. All the present buildings are to go except the factor's residence and the present store. The latter is to be used for farm machinery and heavy hardware. When the work has been completed a great change will be noticed in Hazelton, and a great improvement will have been made.

### CHRISTIANSON LOST A FINGER

Lars Christianson returned to his home in New Hazelton Monday night after spending several weeks in Vancouver. Last spring he got a sliver of lead in his finger and lead poisoning set in. Every effort was made to save the finger, but after consulting specialists in Vancouver, it was found that the finger would have to come off. An operation was performed and since then Mr. Christianson has made good progress.

### BENSON WILL GET A PLANE

Allen Benson, manager of Benson Bros. taxi and transfer, will leave in a few days for Tulsa, Oklahoma, to complete his course in aviation. He has already had part of the course. It is his intention to purchase a plane to be delivered here early next spring for use in connection with the taxi business. Flights will be made to the north or any other place the public wishes to go. There is room here for a plane and there is no doubt but what the new venture will be a success.

### PLANE TRYING FOR A RECORD

Sixteen hours from New York to Edmonton was the time made by a U. S. Army plane last week which was out to establish a record, if possible, for a mail route from New York to Nome in Alaska. The plane flew over New Hazelton Friday afternoon and went down the river to about Kitwanga and then turned back and returned to Vanderhoof where the pilot refueled and took a sleep. Saturday morning he started out again about four o'clock and passed over here about five o'clock and arrived at Fairbanks about eight o'clock the same morning, and then on to Nome.

## PRINCE RUPERT NEWS LETTER

### Prince Rupert

The missionary labors of James C. Brady M. P. in Eastern Canada are bearing fruit. The member for Skeena has frequently taken the opportunity to tell of the wonderful northland in after dinner addresses in Ontario. Last week, tourists passing through here, said they had come north, as a result of having heard Mr. Brady speak, in Renfrew. They regarded the northern tour as a delightful experience.

The fact of having killed a man does not seem to put any gray hair on Steve Boljkewaks head. Held in the local lock-up, awaiting transportation to New Westminster, the Dorreen murderer slept like a log, and showed a keen appetite for meals. Seemingly he was at peace with all the world.

Whispers of a Canadian National hotel at Prince Rupert persist. What gives some credence to the rumor is the fact that next summer the Canadian National will have in commission on this coast three steamships superior to anything afloat, in this part of the Pacific. They are specially designed for the tourist traffic.

A visitor to the city, last week, was Miss Lucy Bacon, of Massachusetts, a sister to the late James Bacon, harbour engineer at Prince Rupert, in the days when this was a little better than a surveyors camp. Miss Bacon was the guest of Mr. and Mrs. Jas. H. Pillsbury, pioneers.

One of the news tidbits of the week is the announcement that Mayor McMordie won his lawsuit against Cliff Ford of London, who for years had the Westholme theatre rented to the mayor. Legal complications set in, there was much correspondence, and finally the case came before justice Fisher at the last assize here. The outcome was of considerable local interest. It would not be surprising if the Westholme, which has been in darkness for many months, would start up again, despite assurances that Prince Rupert is not a two show-house town.

No one in Prince Rupert was more interested in the news that Colonel Bilal of Vancouver had won the kings prize at Bisley than Jarvis H. McLeod, Collector of Customs. When the latter lived in Yukon, Blair was engaged in mining, and the two frequently enjoyed rifle competition at Forty Mile. Even then, the winner of the greatest rifle trophy in the British Empire, was a range enthusiast.

### PUBLIC HEALTH NOTICE

There are a number of cases of infectious diarrhoea in the district chiefly among the Indians of Hagwilget. The public are advised to avoid contact with persons suffering from the disease. The boiling of milk and water or any other suspected food renders it free from infection of any kind.

L. B. Wrinch,  
Medical Health Officer

Reports of the development at the Mohawk property are more encouraging now in regard to the amount of ore in sight. The tunnel is being continued for some distance yet.

## Wedding Bells

Boulding-Richardson

From Vancouver Province

A pretty wedding was solemnized on Wednesday, July 10th, in Cook's Presbyterian church, Chilliwack, when Isabella Melrose, daughter of Mr. and Mrs. D. Richardson, became the bride of John Dawson Boulding, son of Mr. and Mrs. Boulding of Vancouver. Rev. Duncan Campbell of Sapperton Presbyterian church, performed the ceremony and nuptial music was played by Mrs. Duncan Campbell. During the signing of the register Mr. William McBryde of Vancouver sang "All Joy be Thine." The groom was supported by his brother, Mr. Guy Boulding, and the ushers were Mr. David Richardson Jr., and Glen Budge.

Given in marriage by her father the bride wore a gown of white crepe back satin, fashioned with a close fitting bodice, the skirt edged with silk net with a panel front and tiny silk net frills. Her veil of silk net was held in place with orange blossoms and trimmed with clusters of real blossom at the edge, while her bouquet was of Shasta daisies, white roses and white sweet peas. Her only ornament was a crystal necklace. Attending her was Miss Alma Stewart, who wore a bouffant gown of orchid crepe chiffon with an exquisite lace skirt hooped and trimmed with taffeta roses in contrasting shades, drooping at the back to her silver slippers. Her large picture hat of mohair and silk net matched the dress, while her bouquet was a blue delphinium, sweet peas, gladioli and roses. The church was decorated by friends of the bride, with two arches of flowers in the aisle through which the bridal party passed.

After the ceremony a reception was held at the home of the bride's parents where Mrs. D. Richardson and Mrs. Boulding assisted the bridal party to receive. The former chose a black silk lace ensemble with a small black hat and a corsage bouquet, while the latter wore a handsome black silk gown embroidered in rose with a matching hat and corsage bouquet. The bridal party received under an arch of ivy, ferns and orange blossom, while sweet peas decked the bride's table where the wedding cake stood. Presiding at the urns were Mrs. A. G. Jamieson and Mrs. D. Campbell.

Mr. and Mrs. Boulding left by motor for Smithers via Harrison Hot Springs, the bride travelling in a delphinium blue ensemble with grey fox fur and grey mohair hat trimmed with French flowers.

The bride and groom arrived at Smithers last week and proceeded to their home at the Duthie mine where Mr. Boulding is assayer. Both the bride and the groom are well known here. Mr. Boulding had an assay office here for some time previous to going to the Duthie. The bride taught the school in New Hazelton for two years and she was one of the most popular girls in the district and one of the most efficient. The many friends of both the bride and groom extend to them best wishes for a long and happy life together.

### WILL ERECT A NEW HALL

A meeting of the citizens of Hazelton is to be held to discuss ways and means of securing a new hall for the town. The present hall has done its full duty and has been condemned. It is also to be torn down as soon as the new hall can be erected. There are on hand some funds now and it is probable that an association will be formed to provide the new building.

## Bank Robber is Still at Large Hope not Dead

Up to the time of going to press the bank robber had not been picked up by the police in the Smithers district. It is, however, the opinion of Sargt. W. Service that the man will be taken into custody in a very short time now. The police are satisfied that the bandit is in the neighborhood of Tatlow, and that it was not Pete Powers out prospecting that was seen. Just what the man is living on has not been ascertained yet, but he is good stuff to hold out for a week, unless he had a cache prepared ahead of time.

The citizens of Smithers and the surrounding district took part in the hunt for the bandit last week end and aside from the believe that each one of them was going to get the bank's five thousand dollar reward, the boys took considerable excitement and fun out of the "hunt for the bad man." A number of cars loaded with willing all armed to the teeth and with guns, rifles, axes, scythes, and what have you sticking out of the cars in all directions, headed, pell mell, for the suspected hiding place of the bandit. It was an awe inspiring sight to see, even the legal light and the land surveyor with their books on the law of robbing banks and their spy-glass, rushing off to assist the police, or to show the officers of the law how to hunt for bad men. Their theory, however, was exploded early and early Saturday afternoon or evening, they were back in Smithers, glad that the bandit had not seen them first.

According to reports there were at one time some hundred men and boys scouring the woods, the roads and the beer parlors in search of the robber.

In the meantime the police have a number of men surrounding the district in which the robber is supposed to have been seen. The roads and the trails are all guarded. If the man is in that section it is not thought possible that he can get away.

### HALF CROP IN BULKLEY VALLEY

Rain Came in Time to Save Farmers—  
Some Grain Will be Cut for Feed

There is every reason now to figure on at least a half crop in the Bulkley Valley. The dry spring held the hay and grain crops all back and it looked like a complete failure until a couple of weeks ago when the rain arrived. Since then there has been a great improvement, especially in the grain. There will be some very good fields of grain and those fields that are later will be cut for feed to make up for the shortage of hay. One of the best stands of wheat in the interior is on the farm of D. T. Green where he put in twelve acres on summer fallow. It will yield good returns in spite of the unfavorable season. What the valley needs now is dry hot weather for the next few weeks.

Quite a number of people from New Hazelton and Hazelton went to Smithers last Friday to hear the Westminster Glee Singers. They report that it was one of the greatest musical treats the north has enjoyed.

It is reported that another important mining deal was put through just a few days ago which included the Weeden & Larson property, and twelve other adjoining claims in the Owen Lake district. The claims are located on the summit as one goes down into the Owen Lake district from Houston. The discovery was made last fall.

## ROADS ARE GETTING BETTER

In spite of the fact that work was delayed on the roads this year, due to a number of causes, the roads are now getting into pretty good shape. The gravel roads are excellent and the dirt roads are even better where the grader was put up. Sometimes it is felt that some places get more favorable treatment than do others, but that is not the intention. In due course the whole system of roads in the north will be put in good shape.

## Marathon Car Race Planned North and South

An automobile marthon, following the famous Cariboo Highway for sixteen hundred miles through the centre of British Columbia and with \$25,000 hung up in cash prizes, is the project which Charles A. Pyne, president of the Cariboo Automobile Association (incorporated) is advancing with July 1st, 1930 as a suggested starting date. All the details for this spectacular race have not been worked out, but Mr. Pyne gives it to the press to see how it is received. His opinion is that with the prizes offered, and the competition opened to the cars of the world this marthon would do more to attract attention to British Columbia and its historic and scenic highway than any other proposal that has been advanced.

This is really the chief object behind the proposal to make British Columbia and its highway known, and increase the volume of tourist travel through the province. He would make the race from Vancouver to Hazelton on a return, but would have numerous places along the road, at which contestants could enter in the race, proceed on their way to Hazelton, come south again to Vancouver, and north again to the point at which the start was made. He would fix two two or three weeks within which the race should be run, the contestants to be free to rest up at any fixed point or points, and their actual time between such points to count.

Not only would a contest of this kind attract drivers throughout Canada, the United States and Europe, but the attention of the car manufacturers would also be enlisted, in that the contest would establish the roadability in a very comprehensive test of the various makes of cars, a matter to which manufacturers of cars give the closest of attention.

So far there are but two conditions which Mr. Pyne has decided should attach to the race. One is that each contestant shall be obligated to observe the rules of the road as provided by provincial authority, and another that none but medium priced cars, as turned out of the factory by the manufacturers, shall be permitted to enter the contest. Each car would carry distinctive flags or markings to identify it as entered in the marthon, and to facilitate the recording of the time made between checking stations.

As to the prize money Mr. Pyne's suggestion is that the main prize be one of \$10,000, sufficient to command the attention of any automobile owner a second prize of \$5000, and ten lesser prizes of \$1000 each.

While the proposal may be considered as a big undertaking Mr. Pyne expresses himself as quite certain it could be financed through a system of advertising, even though the total expense in connection with the marthon runs to \$50,000. In any event if the proposal is accorded the measure of support he thinks it will receive, he is prepared in the interest of the province to perfect the organization necessary to carry it through to a successful conclusion.

Mr. Pyne would be pleased to receive suggestions from any source which are framed with a view of ensuring the success of the project.

## FINANCE MINISTER ON A TRIP

Hon. J. A. Robb, minister of finance for Canada, accompanied by his wife and his private secretary, passed east on Monday afternoon on a time freight. The party had been on a holiday trip across Canada to Vancouver and then up the coast to Alaska and back to Prince Rupert. On the trip as far as Smithers they were accompanied by Olof Hanson, the Liberal candidate in Skeena.

## Health Service

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

### RURAL HEALTH UNITS

Up until the present time, the knowledge which we possess concerning the prevention of disease has been applied in cities much more than it has been in small towns and rural areas. Practically all cities of any importance have organized health departments with trained workers in charge of the various activities carried on by the Department.

The small towns and rural areas, as a result of the lack of health work, are, in general, not as healthy as are the cities. In other words, those who live in the cities are more free from preventable diseases, because the cities have organized health departments which protect the citizens from preventable diseases. It has been the hope of those who have given thought to the problem of rural health, that some scheme might be devised whereby those living outside the cities would

receive the same measure of protection from disease as those living in the cities.

The County of Rural Health Unit seems to offer a practical means for obtaining this most desirable end. The idea is to organize, in a county or some similar area, a health department which would be staffed by full-time trained workers. That is the county would be served in a health way by a health organization similar to that which has done so much good in the cities. By combining the rural areas and the small towns, there is a sufficient population to support such a service. The health workers in such a unit must be trained and must devote their whole time to this health work.

The plan is well started in some provinces. It is becoming practical for those living outside the cities to secure organized health protection. They must realize what it means, however, and must be willing, as have been the city dwellers, to pay the cost. It costs money to keep well, but it costs far less to keep well than to be ill.

### SUMMER DIARRHOEA

More babies die in Canada during the month of September than during any other month in the year. The

reason for this is because so many of the babies are weakened by attacks of diarrhoea during the hot summer months, they fall victims to second attacks of the disease or to other conditions, which, in their weakened state, they are unable to withstand.

In the year 1928, over 4,200 babies died as a result of diarrhoea. This means that, on an average, over eleven babies died each day during the year because of this condition. There are not nearly as many deaths now from this cause as there were only a few years ago, but we are still paying a heavy toll. The progress which has been made is practical evidence that diarrhoea can be largely prevented if we but take the necessary measures to do it.

The more serious forms of diarrhoea are due to germs which gain entrance to the body in water, milk or other food. The reason why it occurs more frequently in warm weather and why it is commonly known as summer diarrhoea is because, when milk is warm, any germs which are in the milk grow rapidly, and when such milk is given to babies, the result, as it were, a large dose of germs which cause diarrhoea.

Breast-fed babies seldom have this type of diarrhoea because breast milk is practically sterile, that is it is free from germs. This one of the reasons why every baby should be breast fed. The surest and most practical way to prevent diarrhoea is to breast-feed.

For babies who can not be breast-fed, and for older children, milk which is pasturized should be used. If pasturized milk cannot be purchased, then it should be pasturized in the home. After pasturization, every care must be taken of milk, in order to keep it cold and free from dirt and flies. Milk is a most valuable food, but it must be cared for or it is dangerous.

Mothers should realize that if diarrhoea does occur, it is a serious condition, and the time to call a doctor is immediately, not several days later when the baby is acutely ill.

## Terrace Notes

J. Couture of Remo spent a couple of days in town.

Dr. and Mrs. Learoyd and family of Anyox and Miss M. Wall who have been holidaying at Lakelse Lake Hot Springs have returned to the coast.

Misses Mary, Elsie and Jean Reid left last Thursday for their home in Vancouver. Miss Elsie expects to return in a few weeks.

Mrs. E. J. Framer and Miss Moffatt spent the week end in Rupert.

Miss Mabel Bishop returned from Prince Rupert on Saturday after visiting with Mrs. Cox.

Mr. and Mrs. Geo. Wilson and family returned to the coast last week.

A. Attree returned from Martin Lake last Friday where he accompanied his two sons who will spend several weeks there.

Mrs. Killer returned from Rochester where she spent some time.

F. Anderson visited Prince Rupert this week.

Mrs. H. L. Smith left on Thursday last for Seattle. She will also visit in Portland and other cities.

Mrs. Bird and family of Prince Rupert who have been holidaying at Lakelse spent a few days in town with Mr. and Mrs. Attree.

Mr. and Mrs. Jas. Gray of Stratford Ont., left for the coast on Saturday after visiting with Mr. and Mrs. Geo. Dover.

Mrs. O. I. Danhauer and Miss Elsie

**FREE BABY BOOKS**  
Write The Borden Co., Limited, Dept. B41, Homer Arcade Bldg., Vancouver, for two Baby Welfare Books.

left Thursday for Stoney Plains, Alta., where they will spend a holiday with friends.

Mrs. A. Sims and daughter of Rupert are visiting with Mrs. Jas. McConnell.

Mrs. A. McLeod and two sons left on Thursday for Ontario. The boys will spend the summer there with relatives.

Mrs. McCarthy of Prince Rupert was a week end guest of Mrs. E. M. Smith.

Miss Shirley McEwen who holidayed here returned to her home in Rupert last week.

Dr. W. T. Kergin and son of Prince Rupert were in town last week. The doctor came up in connection with the organization of a Masonic lodge here.

W. Warner of Rosswood was in town last week.

Mrs. J. B. Colthurst and son David left Friday for Hazelton from which point they motored to their home in Sooke, V. I. The Captain and the rest of the family have been there for the last few weeks.

Miss Kyte of Seattle is a guest of Mrs. J. K. Gordon.

Miss Margaret Kells returned to Engen on Friday after spending two weeks with her sister, Mrs. E. Haugland.

### FIRST AMATEUR TO MAKE PAR ON FAMOUS JASPER GOLF COURSE

For the first time in its history, an amateur has played the famous Jasper Park Lodge Golf Course in par. The triumph belongs to B. Tait, of Pasadena, California, scion of one of the most noted golf families in Scotland. Par for the Jasper Golf Course where the Canadian Amateur Championship will be played in August is 70.

Mr. Tait's first visit to Jasper was a quarter of a century ago, when, as a surveyor he went through that country in advance of the railway.

### BOY SCOUT SHOOT KODIAK BEARS

Dick Douglas, world famous Boy Scout, who crossed Canada recently by Canadian National Railways, in the short space of a month, shot two hundred Kodiak Bears in the Islands of Alaska. "Incredible as it may seem I shot two hundred bears while on my trip," said Dick, "One hundred and ninety-eight with a camera and two with a gun. One only measured 9½ feet and I was told he was a small one, but he looked big enough to me when I saw him first about 50 yards away." Douglas who accompanied Martin Johnson during his last African trip will write a book covering his trip across Canada, and to the Kodiak Islands. En route to Montreal, Douglas stopped at Jasper National Park to photograph some animals and scenery to reproduce his new volume.

This week the District Engineer, W. K. Gwyer, has been working on the aerial survey for the road from the coast to connect with the main highway at Terrace. Several flights were required and Mr. Gwyer will report at a later date.

## Advertised Goods Are Lower

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This, also, is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

### A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profits of increased sales.

Advertising is easy—it is simply saying in writing what you say to your customers in your shop. Turn over stocks quickly, if you would make more money.

Read the Advs. Then Shop

## Shoes Clearance Sale Women and Boys

These are all good shoes and are extra big value at the prices asked during the sale.

## "Patent Leather Kid"

Eleventh Episode of Tarzan

Lee Tukey has decided to close his restaurant here and open in Smithers in a short time.

Last Thursday Mr. and Mrs. Geo. D. Parent were dinner hosts, the guests including Bishop Bunoz, Rev. Father Cocola and Rev. Father Godfrey and the Misses Murphy and McLean of Kimberley, B. C.

Everett Greenaway, who taught in the school at Alice Arm for two years after his term at Kisplox, was the guest of honor at a farewell dance and he was also presented with a handsome club bag. Greenaway will take a University course when the term opens in the fall.

Geologists are now trying to locate oil on Graham Island. According to surface indications oil should be there in quantities. It is about time that another attempt was made to find oil in the Kisplox Valley where there are indications. Oil is king now and it should not be difficult to interest all the capital necessary.

Fred Peterson, an old resident of New Hazelton has been in the hospital the past week or so.

At the present time there is a good deal of talk of organizing a board of trade for the Hazelton district. Some years ago there was an active board, but it gradually died out. Now that the northern part of the province has taken a forward move there is ample work for an active board to do.

Rev. T. H. Wright returned to the district last Friday afternoon after a motor trip to Vancouver and back. While away he attended the marriage of his son. Mr. Wright reports having had a very fine trip. His only difficulty was when he got on this side of Prince George he ran into a piece of new road construction and he says the going there was pretty tough, even for his car. He took the services in the United church on Sunday.

A party of 80 tourists will arrive at Hazelton station on Sunday morning and will be met there by a fleet of cars that will take them for a drive through Hazelton and out to the high level bridge and back. The party will be at Smithers Saturday night where a ball will be given in their honor as well as a drive around the district.
